

TECHNICAL FACT SHEET

PRODUCT: **GAMMA GROW**

PACKAGING: 1 QUART (960 ML) BOTTLE
12 BOTTLES PER CASE

INGREDIENTS: GAMMA ORYZANOL (1000MG/15ML)
CREATINE MONOHYDRATE (50MG/15ML)
ORNITHINE-K-KETOGLUTTERATE
(50MG/15ML)

DIRECTIONS: USE 15ML PER DAY UP TO 1000LB (454KG)
OF BODY WEIGHT. AN ADDITIONAL 15ML
PER DAY MAY BE USED FOR LARGER
HORSE BREEDS AND CAMELS

FEATURES:

GAMMA GROW IS A VERY PALATABLE TOPDRESS SYRUP DESIGNED TO HELP INCREASE MUSCLE MASS IN UNDERDEVELOPED HORSES. THE COMBINATION OF ORNATHINE KETOGLUTTERATE (OKG) AND GAMMA ORYZANOL BLENDED INTO THE PROPRIETARY CREATINE BASED SYRUP HAS BEEN EXTREMELY EFFECTIVE IN BULKING HORSES UP WITHOUT MAKING THEM FAT, WHEN USED DAILY. AN ADDED BENEFIT OF DAILY USE OF THE PRODUCT HAS A VERY NOTICEABLE INCREASE IN FEED EFFICIENCY. THIS ACTUALLY HELPS TO OFFSET THE COST OF THE SUPPLEMENT. SINCE THE NOW ENFORCED ANABOLIC STEROID POLICY IN MANY OF OUR STATES WAS IMPLEMENTED, MANY TRAINERS OF RACE HORSES HAVE BEGUN USING GAMMA GROW TO ACHIEVE THE PHYSICAL RESULTS THAT THE STEROID ONCE DID. THE NICE PART OF THIS IS THAT WHILE GAMMA GROW PERFORMS ANABOLICALLY IT DOES NOT PRODUCE THE UNWANTED ANDROGENIC EFFECTS THAT MOST STEROIDS DO. GAMMA GROW CAN BE USED IN ANY AGED HORSE SAFELY. AS OPPOSED TO ANABOLIC STEROIDS, THERE ARE NO KNOWN SIDE EFFECTS WHEN USED AS DIRECTED. GAMMA GROW ALSO WORKS AMAZINGLY WELL ON GREYHOUNDS AND SPORTING BREEDS THAT HUNT HARD ALL DAY AND CAN'T KEEP FLESH. IT IS AVAILABLE WITHOUT A PRESCRIPTION.
