

Technical Fact Sheet

Product:

LACT-EZZ

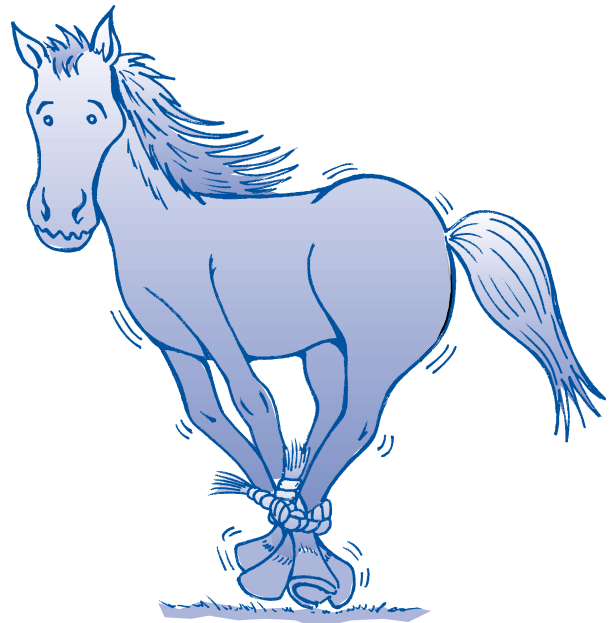

Packaging: 30 one (1) ounce (28.4 gm) packets per box
24 fifteen (15) ml oral syringes per box

Ingredients: L-Carnosine (850 mg/oz), Ornithine- α -KetoGlutarate (500 mg/oz), Calcium Pantothenate (700 mg/oz), α -Lipoic Acid (400 mg/oz), Thiamine Hydrochloride (1000 mg/oz)

Directions for Use: Give one (1) packet or syringe on the day before competition; give one (1) packet or syringe on the day of competition; and give the third and final packet or syringe after work, training or competition.

Features: **LACT-EZZ** aids in nutrient metabolism and utilization which appears to help delay the onset of fatigue, thus minimizing the potential for muscle fiber cramping of skeletal and/or cardiac muscles otherwise known as rhabdomyolysis or "tying up" syndrome.
