

Technical Fact Sheet

Product:

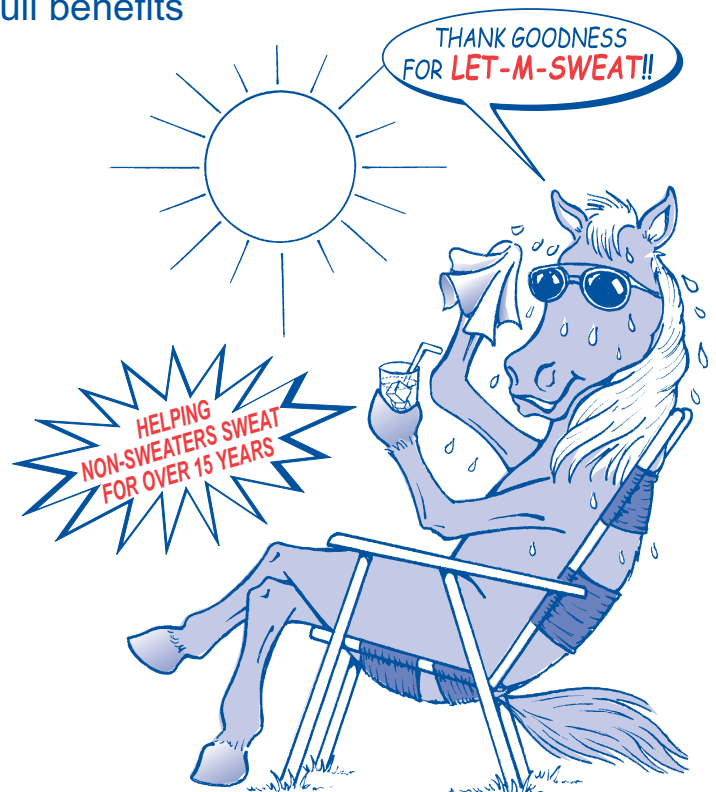

Packaging: 40 oz. (1135 gram) tub - 4 tubs per case

Ingredients: Ascorbic Acid (Vit C), Biotin, Calcium Chloride, Choline Bitartrate, Cobalt Glucoheptonate, Cobalt Sulfate, Copper Lysine Complex, Copper Sulfate, Cyanocobalamin (B12), Ethylenediamine Dihyriodide, Folic Acid, Iron Sulfate, Magnesium Sulfate, Manganese Chloride, Manganese Methionine Complex, Menadione Sodium Bisulfite Complex (Vit K), Niacinamide, Pantothenic Acid, Potassium Chloride, Pyridoxine Hydrochloride, Riboflavin, Sodium Chloride, Sodium Saccharin, Thiamine Hydrochloride, Tyrosine, Vitamin E Supplement, Zinc Methionine Complex, Zinc Sulfate

Directions for Use: Use one (1) ounce AM and PM for the first 7-10 days, then decrease to one (1) ounce daily until cooler weather. It is recommended to discontinue use during cooler months so that you will get full benefits of the product when you really need it. Results usually occur in 4-6 weeks.

Features: As an alternative to “shipping ‘em north”, **Let-M-Sweat** offers a unique blend of nutrients that help overcome the heat stress effects of the condition commonly known as “non-sweating” or “Anhidrosis”. Originally developed in Florida in the mid 80’s by J.D. Carpenter, **Let-M-Sweat** helps most non-sweaters “break a sweat” in even the most severe environmentally heat stressed conditions. In many cases it will even help those horses that are sub-clinical or borderline non-sweaters from becoming the real thing, a non-sweater. Simply put . . . **IT WORKS!!!**
